

Our company profile

**【About us】**

Director,

Etsu Kobayashi : Representative Engineer (has experience 17 years)

Yoko Kobayashi : HR and Accounting

3 years in Bangalore. (From 2014.07)

To explore possibility in IT field, we came to India.

**【Working Style】**

We prefer small team (Maximum 10 members), only skillful and motivated engineers. We're trying to create a good team for undertaking projects from all over the world at first stage.

Next stage, we also want to try creating original products.

-Working hours are min 160 hours per month

( 8 hours per day and 20-22 days per month.)

-Flex time between 9 am to 9 pm.

Trying to be flexible, in order to increase our performance.

We could provide a chance to visit to other country within 2 years, if you could show your performance.

**【Environment and Person】**

If you would like to learn solid and certain technologies, properly and punctually.

We can say our environment is best for you.

We require you to be honest to inform working hours when you work from home, to manage yourself, means be autonomous instead of at liberty.

For working as team, should not be selfish,  
and keep a strong passion for improving your skills by yourself.

This is the person we're seeking.
